

Elaine Shan, ys3719, N19870848

Grace Yang, gy654, N10610063

5.9.2022

Project Contribution

Grace Yang:

1. Select the ADS analyzed in the report
2. Write the purpose of the ADS and its states goals in the background section
3. Write 3 multiple goals of the ADS and explain the possible trade-offs in the background section
4. Write the data collection process and analyze input features of the ADS in the input and output section
5. Write the implementation and validation section
6. Analyze the accuracy of the ADS and compare its performance across different age groups. Analyze the fairness of the ADS by computing fairness measures in the outcome section.
7. Analyze the transparency of the ADS, and robustness(privacy) in the outcome section
8. Analyze the appropriateness of the data used for the ADS and the robustness and fairness of the ADS in the summary section.
9. Write the code for data exploration, the analysis of fairness, and transparency.
10. Presentation slides and presentation

Elaine Shan:

1. Select the ADS analyzed in the report
2. Write 2 multiple goals of the ADS and explain the possible trade-offs in the background section
3. Analyze output features of the ADS in the input and output section
4. Justify the diversity measures chosen for the analysis of ADS
5. Write the part C and D in the summary section
6. Presentation slides and presentation
